

BARNHART PUMP COMPANY, INC.

WELL INSPECTION AND TEST PROCEDURES

Barnhart Pump Company, Inc. will be conducting an inspection of all visible aspects of the pump and well system, looking for and reporting any and all problems in the electrical, plumbing, along with any unsanitary well conditions. Barnhart Pump Company, Inc. will also perform an analysis of electrical circuits, motor windings, and amperage draw readings. If the system appears to be in good working condition then and only then, will we continue our test. A flow test, if requested, will be performed at the most suitable location as determined by Barnhart Pump Company, Inc.'s agent. Barnhart Pump Company, Inc. will not deploy a sounder into this well without the consent of all involved parties. The length of time for which the flow test will run will be determined by the purchaser except in instances where the test is limited by the pump's ability to produce water from the well. Measurements are taken and documented on the System Inspection & Flow Test Report along with **all** pertinent findings. No work shall be performed on the system without the well owner's permission. If, at any time during the inspection or flow test we suspect a condition that could damage the well, pump or water system, we will stop work and report the problem immediately. This inspection can and will cease for any reason as determined by Barnhart Pump Company, Inc. at which time charges shall stop and payment will be collected.

LIABILITY RELEASE FORM

By signing this **Liability Release Form**, the undersigned agrees and does hereby release Barnhart Pump Company, Inc., its employees and/or agent representatives from all liability, as well as indemnify and hold harmless any and all liability if for any reason the pump and/or any part of the water system at said property should fail through no fault of Barnhart Pump Company, Inc.'s during or subsequent to conducting the Well Test and System Inspection. Additionally, by signing below, the undersigned authorizes Barnhart Pump Company, Inc. to release said findings to the purchaser of the Well Inspection & Test.

The undersigned **authorizes** the release of historical information related to this water system.

The undersigned **does not authorize** the release of historical information related to this water system.
